about the separate trajectories of the levant the gulf egypt and the maghreb after the arab spring uprisings

drawing on a wide range of arabic and western sources and his own experiences and providing in depth comparisons of six key arab states algeria egypt iraq jordan kuwait and saudi arabia faour challenges the notion that desert storm solved more problems than it created the human costs he demonstrates have been appalling the economic costs have likewise been enormous and the already precarious state of inter arab relations has atomized with old disputes reviving and new antipathies thriving what the gulf war did not change was the potential for political instability although authoritarian regimes remained intact the war both spurred popular demands for democracy and encouraged militant islamic movements back cover

this scarce antiquarian book is a facsimile reprint of the original due to its age it may contain imperfections such as marks notations marginalia and flawed pages because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work

disruption following the gulf war and the need to satisfy both rising economic aspirations and the islamic values of the region s peoples demands fresh examination of development issues in the arab world this introductory text assesses how agricultural industrial and urban development has evolved in the arab region contrasting arab and western interpretations of development it draws on case studies covering states as diverse as saudi arabia yemen morocco and jordan the author suggests that until the arabs define their own identity there will continue to be change but not necessarily progress in the region

arab regionalism details and examines the power relations involved in the making of an arab region on an empirical level this book concentrates on the drawing of topographic and ideational boundaries in the arab region on arab regional organizations on the functional

cooperation among arab states and institutions and on the socio cultural infra structure that supports the arab region making process with a strong focus on post 1990 dynamics on a theoretical level this work makes a case for the analytical autonomy of arab regionalism as opposed to regionalism in the middle east or in the mediterranean and for the necessity of approaching it as an actual process instead of a failed project the attitude of debasement and erasure towards arab regionalism that is common place in the field of regional studies is replaced in this book for the acknowledgment that there is much more political coordination economic cooperation and social integration in the arab region than has previously been assumed providing a fresh perspective on arab regionalism this book will be an essential resource for scholars and researchers with an interest in regionalism middle eastern politics and international relations

beyond considering the history religion leadership and current social trends in the arab world the authors closely examine the lives of its people to portray the realities of daily life in the arab nations

it has often been argued that arab states are arbitrary political creations lacking historical or present legitimacy this book first published in 1990 provides a different picture of the arab state drawing on historical economic philosophical and sociological perspectives to give a balanced and convincing view of the complex reality of contemporary arab politics the contributors from the arab countries from europe and the united states investigate the roots of the nation state in the arab world evaluating in particular the economic bases of individual states they discuss the evolution of arab societies and the way this is reflected in different states and examine the problems of domestic and international integration in the arab context original and comprehensive in its findings this is an essential text on the fundamental political structure of the arab world its interdisciplinary breadth makes possible an entirely new reading of the political reality of the middle east

the great importance of detailed data and their use in generating interdisciplinary scientific knowledge on the development and utilisation

of the water systems of the arab region with its widespread water stress and desert areas is well established with increasing consumption of water in the region backed up by the growing population the per capita availability of freshwater in the coming years is expected to cause severe scarcity unless some fundamental and anticipatory changes are introduced in the management of their water systems towards that end such a rich book will prove to be a great help the book is the last one written by the author and the depth of data presentation and analysis clearly indicates the professional maturity with which it has been written accordingly the book is the final expression of the lifelong work and scholarship of professor mamdouh shahin the arab region has been the home of some of the earliest human civilisations and their history is also a continuum of human endeavours towards ensuring the access to water over an expanding space and time the presentation of the important elements of history of the region as related to water will prove to be a rich reference

this book explores the emergence of an anarchic states system in the twentieth century arab world following the collapse of the ottoman empire arab nationalist movements first considered establishing a unified regional arrangement to take the empire's place and present a common front to outside powers but over time different arab leaderships abandoned this project and instead adopted policies characteristic of self interested territorially limited states in his explanation of this phenomenon the author shifts attention away from older debates about the origins and development of arab nationalism and analyzes instead how different nationalist leaderships changed the ways that they carried on diplomatic and strategic relations he situates this shift in the context of influential sociological theories of state formation while showing how labor movements and other forms of popular mobilization shaped the origins of the regional states system
